

Learning Module:

Animal Rights

The following is the basics of what you should learn during the Animal Rights subsection:

1. The two sub-groups of the moral community.
2. The definitions of and criteria for being:
 - a) moral agent
 - b) moral patient
3. Which criteria are relevant for each author for inclusion into or exclusion from the moral community.
4. The moral status of eating animal products and by-products, including purchasing leather and other animal goods, according to each author. Be able to explain.
